

T-SSS

Pre-Punched Stainless Steel Strapping

DESCRIPTION

T-SSS pre-punched stainless steel strapping is used to anchor MI snow melting cable assemblies at a consistent spacing to the base asphalt pour.

The pre-punched tabs are spaced 1" (3cm) apart.

Each T-SSS roll is W/L .5"/50' (1cm/15m).

Please call Delta-Therm at 1-800-526-7887 if you have any questions.

INSTALLING

Lay two parallel rows of T-SSS strapping on top of the 1.5" (4cm) base layer of asphalt.

Using 3" - 4" (8cm - 10cm) long nails, secure the T-SSS strapping on top of the base layer of asphalt.

The T-SSS strapping tabs are spaced 1" (2.5cm) apart. Using the tabs, secure the MI snow melting cable assembly to the strapping at the specified cable spacing. Refer to Detail 1.

Please call Delta-Therm at 1-800-526-7887 if you have any questions.

Detail 1. Attaching MI cable to T-SSS strapping.

TECHNICAL SUPPORT

A full set of installation instructions is included with order. Please call 1-800-526-7887 with any questions.
